

STATE OF THE MAP LATAM

Come map the Amazon, come map life

DEC 6-8 — BELÉM

In the heart of the Amazon, Belém - Brazil, will host State of the Map LATAM 2024. This event connects passionate mappers, developers, and geospatial professionals from across Latin America. Attendees will see the OpenStreetMap (OSM) community in action, creating detailed, impactful maps, including efforts to map the Amazon and its communities.

The mission of our event is:

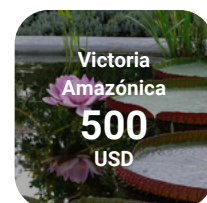

- **Promote Open Mapping:** We aim to promote and discuss the state of OSM in the region. This global map project invites enthusiasts to collaborate and map our shared world in unprecedented detail.
- **Champion Open Geospatial Technology:** We aim to promote free and open-source geospatial software, impacting public policies, business strategies, and education in Latin America and beyond.

Why Sponsor?

- **Visibility:** Exposure to a diverse local and international geospatial audience, with an estimated 300 in-person attendees.
- **Branding:** Align your brand with innovation, community collaboration, and the future of geospatial technology.
- **Networking and Opportunity:** Engage with the geospatial community and showcase your offerings to an interested audience.

Packages

How will your sponsorship help?

- Sponsor the travel of a speaker who would otherwise be unable to attend.
- Sponsor accommodation.
- Sponsor food and drink supplies.

Sponsor perks

- Logo placement on our website
- Recognition during conference opening and closing remarks
